## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1 – 37 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Nishikawa et al. (best shown in Fig. 22) shows a multilayered transmission line comprising first and second microstrip circuits, a ground plane (g), and first and second dielectric substrates where one side of the first microstrip circuit (W1, W2; left side) is exposed to air (65) and the other side is exposed to the first dielectric substrate (analogous to Applicant's Fig. 3A) and the second microstrip circuit (W1, W2; right side) is exposed to air (65) but does not show and the other side is exposed to the second dielectric substrate (analogous to Applicant's Fig. 3B) where both microstrip circuits (65 or W1) are located on the first dielectric substrate, nor would it be obvious to configure the circuit of Nishikawa et al. to meet the limitations of the independent claims, thus the claims are in condition for allowance.
